

Register now to volunteer at the first ever IT job and career fair! Spend the day, or even a few hours, with students and community members interested in pursuing IT careers. Share your experiences and thoughts on what makes IT such an exciting field! Learn more about the event on the [NEW Connect IT](#) website.

Individuals interested in volunteering should contact Kim Iversen at newitalliance@gmail.com no later than October 12. Please indicate which position you are interested in helping with, as well as any time constraints you have.

Shifts start at 8:30, unless otherwise stated. A one hour pre-meeting will be held at 8:00 on November 1 at the FVTC Bordini Center, where we will do a walk through of the event. All volunteers are encouraged to attend.

- **Career guides** - preferably IT interns or young professionals who can talk to both your company and what it's like to work in IT; responsible for guiding high school students from station to station in a timely manner.
 - Looking for approximately 10 volunteers
- **Registration Table** - welcome the participants and get them started on the right foot. **Shifts start at 8:15.**
 - Looking for a minimum of 4 volunteers
- **NEW IT Alliance table** - open to members only. Help promote the NEW IT Alliance to companies, schools, and participants.
 - minimum of 2 volunteers
- **Help room** - open to members only. Help troubleshoot and answer questions, making the event a fantastic experience for all involved.
 - Minimum of 2 volunteers
- **Floater/hallway help** - lend a hand wherever needed, as well as ensure traffic is moving smoothly throughout the event. Make sure high school groups are moving from station to station in a timely manner.
 - 2-4 volunteers
- **NEW Talent Cafe** - individuals who can sell their role. They will be sitting at tables talking with high school and college kids interested in learning more about what the following roles do. A minimum of 2 volunteers per role are needed.
 - Developer (software, web, app, mobile, etc.)
 - Software Tester/Quality Assurance
 - Cyber Security
 - Network Administrator
 - Server/Systems/Infrastructure Administrator
 - Business Analyst
 - Data (database administrator, business intelligence, etc.)
 - Project Manager
 - User Support
